20XX

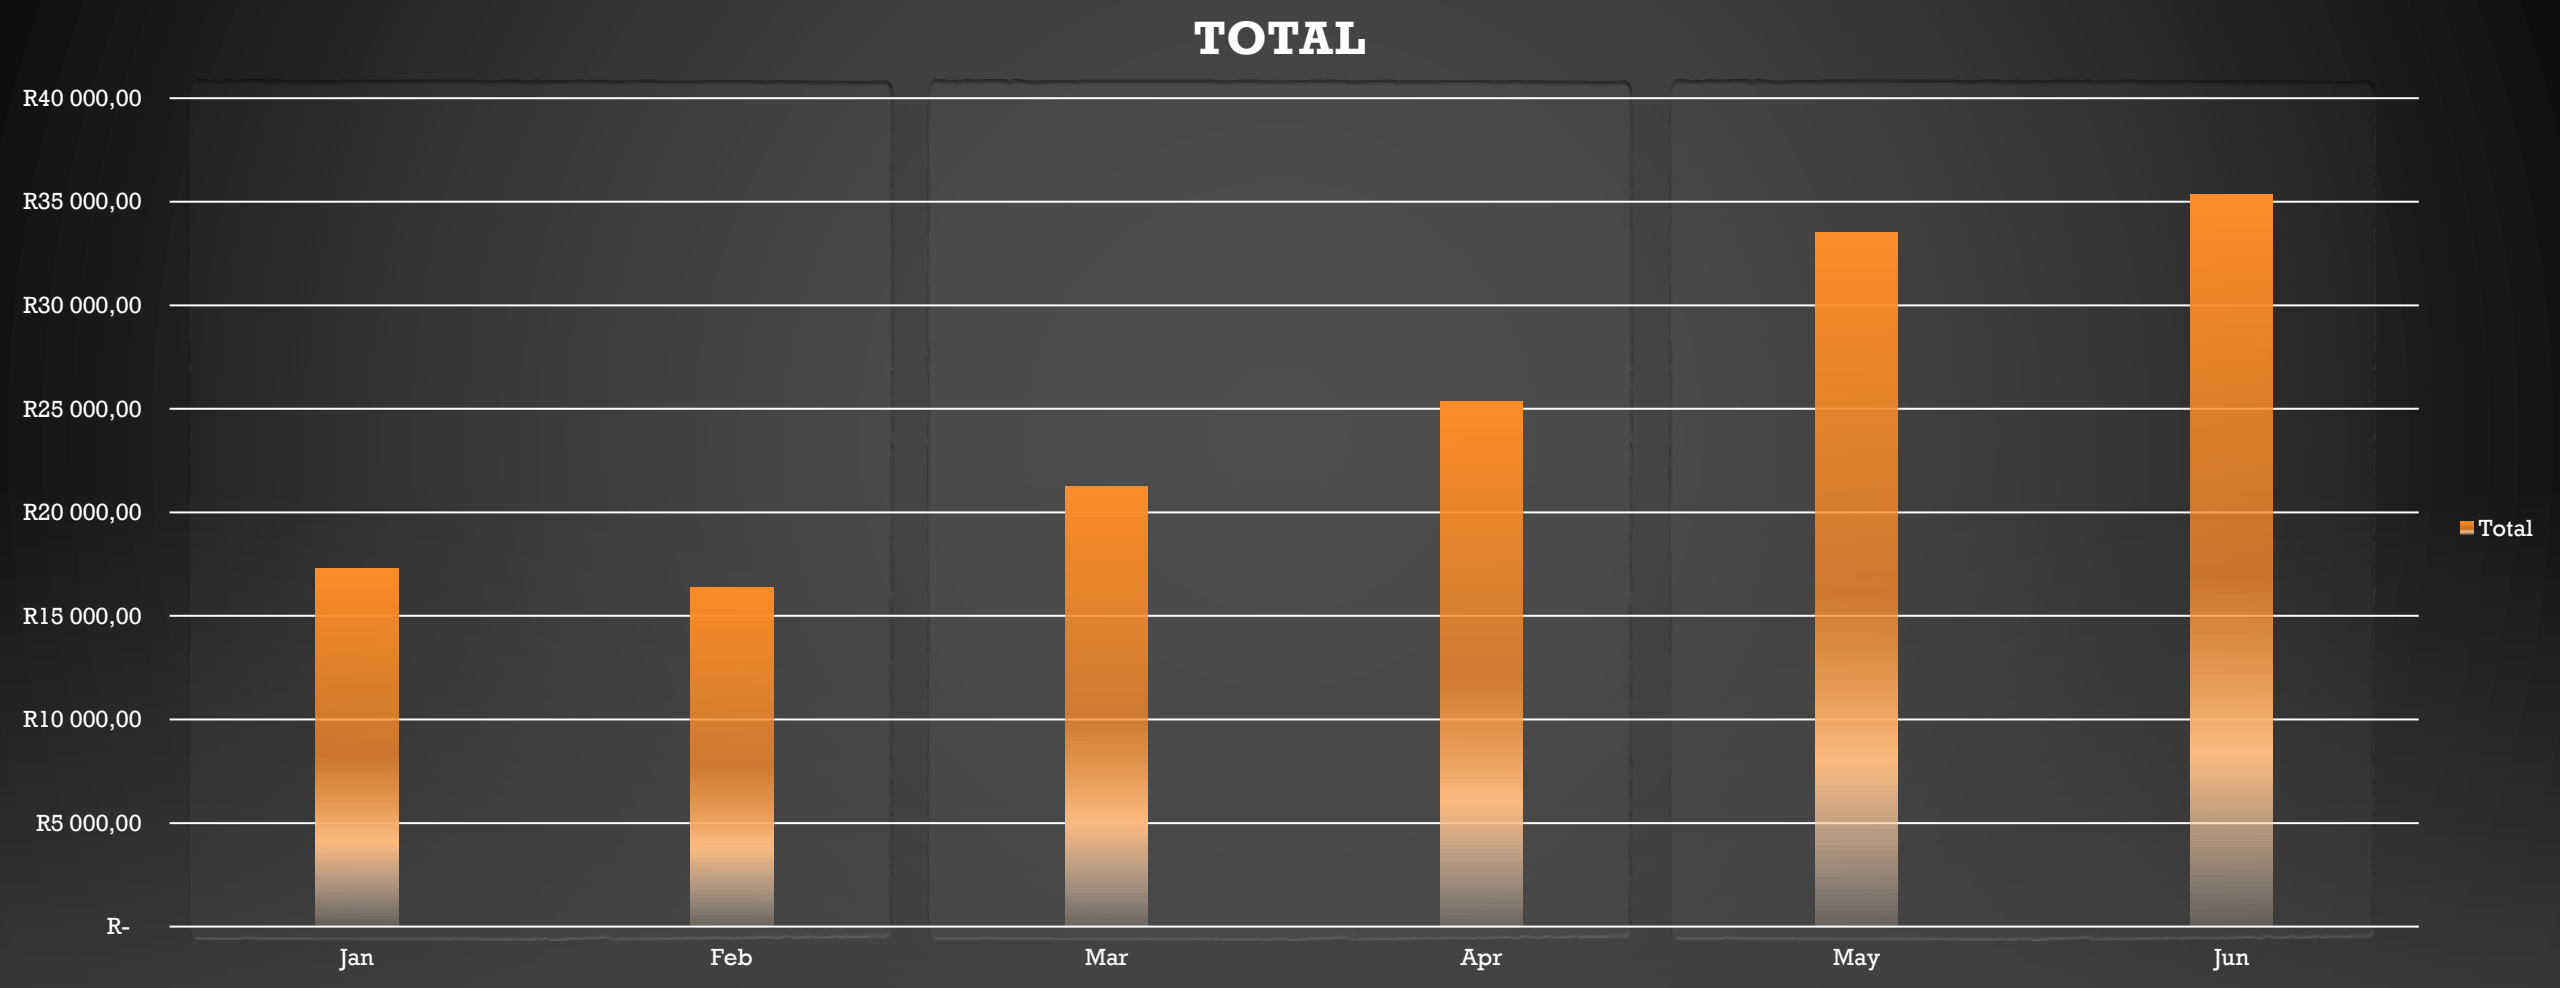
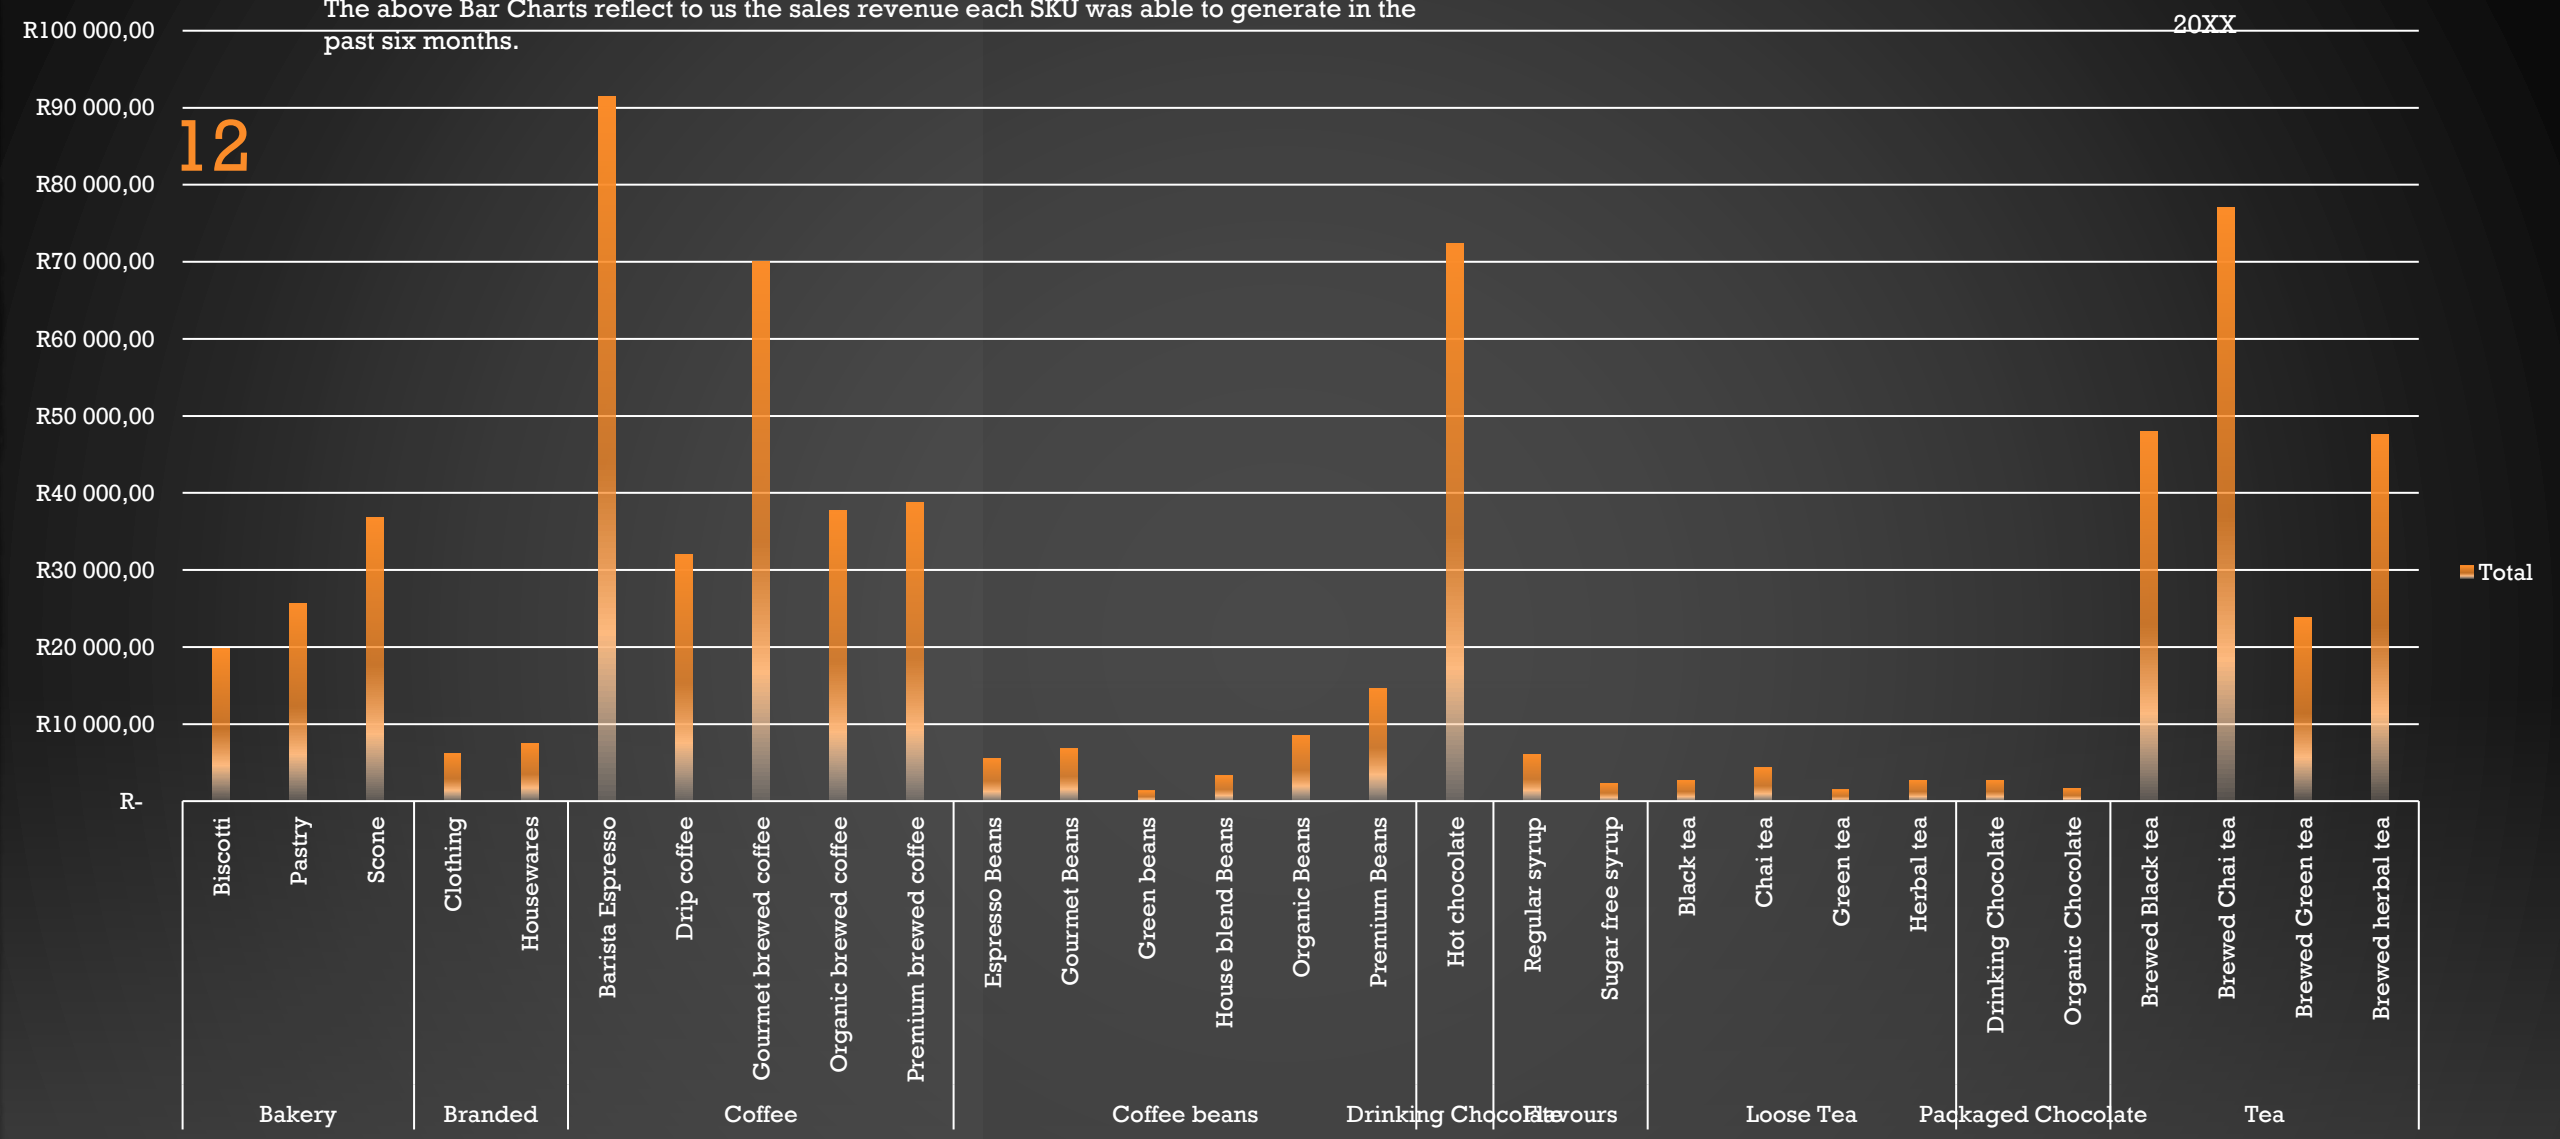
11



TOTAL REVENUE PER PRODUCT TYPE

The above Bar Charts reflect to us the sales revenue each SKU was able to generate in the past six months.



OBSERVATION AND CONCLUSION

- By the look of things,the previous CEO has been a little negligent as the signs were there and even worsened as no action was taken to try and revive the sales performance in these stores.
- Only one store was perfoming very well out of all three of them,but only at a certain times of days and month.
- There need to be regular promotions ie;rewards such as buy one get one free for your partner for a certain while in some days of the month.
- Get promoters to give out tasters and hand out flayers and pamphlets to customers.
- Get Point of sale in each space that may be freely available.
- If recources such as funds,put one or two billboards in the highway to create awareness amongst customers for any promotions that may be running at a given time.
